

EDUCATION

Program	Institute	% / CGPA	Year
M.Tech. (Data Science & Artificial Intelligence)	Indian Institute of Technology, Madras	9.47	2026
B.Tech. (Data Science & Artificial Intelligence)	IIIT D&M, Kurnool	8.68	2024
Class XII (CBSE)	Sir Padampat Singhania Education Center, Kanpur	90.6 %	2019
Class X (CBSE)	Sir Padampat Singhania Education Center, Kanpur	8.6	2017

PROFESSIONAL EXPERIENCE

AI & ML Intern, LinkedIn (May – Aug'25)	- Built a golden dataset to define baseline metrics for AI-powered hiring assistant systems. - Validated recruiter activity data, achieving ~15% additional coverage on hiring insights beyond traditional methods, enhancing algorithm development. - Worked with vector embeddings, LLMs, HDFS, SQL, and Python on LinkedIn's large-scale hiring data for processing and modeling.
Deep Learning Intern, TensorGo (May'23 – Jul'24)	- Worked on an efficient asset search system leveraging multimodal large language models, vector databases (e.g., FAISS), and similarity search algorithms, achieving sub-second response times. - Contributed to a video AI rotoscopy system for automatic matte generation, reducing manual annotation effort and significantly saving time.
Deep Learning Intern, Boltzmann Labs (Oct'23 - Nov'23)	- Compared thermal stability of generated protein sequences across various protein-generating LLMs. - Worked on Neoantigenic Peptide and Antimicrobial Peptide prediction tasks using deep learning models.
AI Research Internship Dr. A Mercy Latha, CSIR-CEERI, Chennai (Jun - Jul'23)	Developed high-performing segmentation and detection models for both MRI and terahertz images, accurately identifying tumor and tumor growth areas. Achieved high IoU and Dice scores on terahertz data despite limited samples by leveraging semi-supervised learning techniques, demonstrating robustness and adaptability.
Problem Setter (Freelance) codeintuition.io (May - Jul'23)	Developed and curated an extensive DSA repository on codeintuition.io, featuring over 300 optimized solutions with comprehensive code walkthroughs and thoughtfully designed edge test cases. The collection spans multiple programming languages, including Python, C++, and JavaScript serving as a robust resource for diverse problem-solving needs.

PROJECTS

Surface Crack Detection – End-to-End AI Application	- Developed an end-to-end surface crack detection AI application with deep learning, featuring containerized microservices, model versioning, and real-time monitoring. - Implemented MLOps workflow with Docker, MLflow, DVC, Grafana, and Prometheus, including a feedback loop for continuous model improvement.
OASIS project, Prof. Shaunak Chakraborty, IIITDM Kurnool (Nov'22 - July'23)	- Project involves the integration of UNet and GAN models, incorporating Semi-supervision and Active Learning techniques. These approaches aim to enhance the accuracy of semantic image segmentation, minimize the requirement for manual annotations, and improve overall model performance. - Successfully managed complex datasets (Cityscapes, DLRSD) and collaborated closely with Samsung R&D group, aligning AI model outcomes with practical needs, showcasing adaptability and teamwork.
Churning Predictor	Leveraged historical financial data to build an ANN-based prediction tool aimed at reducing customer attrition in financial institutions, including comprehensive data cleaning and preprocessing.

POSITIONS OF RESPONSIBILITY

Android Lead, GDSC, IIITDM Kurnool (Aug' 22 – Jul' 23)	Compose Camp Facilitator - event to empower fellow students with cutting-edge Android development skills using Jetpack Compose - Played an integral role in the planning and execution of multiple successful tech-focused events.
Placement Coordinator, T&P cell IIITDM Kurnool (Aug' 22 – May' 24)	Played a key role in the data collection and analysis team for crafting the college's placement brochure. Assisted in gathering, organizing, and analyzing placement-related data to create an informative and visually appealing brochure.

ACHIEVEMENTS

Scholastic Achievements	All India Rank 42 in DA paper of GATE 2024 out of 39,210 candidates, organized by IISc Bangalore. Rank 1 at Facet Interface 2022 BITS Pilani among 450 teams in Data Science & Machine Learning competition; led the team through strategic problem-solving, innovative model development, and effective collaboration. STEMS 2021 CS Merit at Chennai Mathematical Institute, earning an exclusive opportunity to attend lectures by renowned professors and researchers. Branch Gold Medal in B.Tech. for achieving the highest CGPA. Student Excellence Award – Secured 1st Rank in AI&DS at IIITDM Kurnool for the Academic Year 2022–23. - Samsung Prism Excellence Certificate awarded by Samsung Research Institute Bangalore for outstanding performance in Prism virtual internship.
--------------------------------	--

	● All India Rank 964 in Innovate India Coding Championship organized by Coding Ninjas and Chandigarh University.		
RELEVANT COURSEWORK			
Data Structure & Algorithms	Machine Learning	Deep Learning	Computer Vision
Machine Learning Operations	Natural Language Processing	Reinforcement Learning	Operating System
Maths for Data Science	Data Analysis and Visualization	Probability & Statistics	Database Management System
EXTRACURRICULAR AND SKILLS			
Skills	● Languages: C/C++, Python, R, HTML/CSS, JavaScript, Kotlin ● Libraries & Frameworks: PyTorch, TensorFlow, scikit-learn, Keras, OpenCV, Hugging Face Transformers, Spark ● Tools: Git, Docker, MLflow, DVC, Flask, Airflow, Prometheus, Grafana, Android Studio, ● Cloud/Databases: Firebase, Relational Databases (MySQL, PostgreSQL), MongoDB, Vector Databases (Milvus) ● Soft Skills: Teamwork, Time Management, Leadership, Problem Solving, Self-learning, Adaptability		
Hobbies	● Football, Volleyball, Table Tennis, Hiking, Reading, Music, and Video Games		

IIIT D&M: Indian Institute of Information Technology, Design and Manufacturing, **GATE:** Graduate Aptitude Test in Engineering, **HDFS:** Hadoop Distributed File System, **CSIR-CEERI:** Council of Scientific & Industrial Research - Central Electronics Engineering Research Institute, **OASIS:** Online Aerial image-based Surface Information System, **IoU:** Intersection over Union, **GAN:** Generative Adversarial Network, **DLRSD:** Dense Labeling Remote Sensing Dataset, **STEMS:** Scholastic Test of Excellence in Mathematical Sciences
